

HR EMPLOYEE PORTAL WITH ONLINE PAYSLEIPS

Case Study: Online access is provided to employee/pensioner payslips, P60's & personnel files via secure SaaS solution for greater accessibility & control

Engeneum help long term customer Nottinghamshire County Council embark on a pioneering project to digitise personal files for innovative online document storage and retrieval to streamline their Human Resource practices.

County Hall, Headquarters

Challenge

Nottinghamshire County Council's (NCC), Business Support Centre's (BSC) challenge was to eliminate paper from the HR process to provide secure access to documents for their remote sites.

History: All personal files were held at a transactional unit, sited 7 miles away from County Hall. With over 150 metres of paper file storage shelving. The retrieval, storage space and security of these files needed addressing. The resource needed to manage the sharing of these files across whole the county was an additional challenge.

NCC realised that there was a need to streamline this process in terms of both cost and efficiency.

Solution

By working with Engeneum and utilising their SaaS HR Portal NCC have been able to create a central Employee Services Centre enabling centralisation of both HR and payroll functions.

As part of the HR portal Engeneum's online payslips solution improved our payroll efficiency significantly and allowed not only existing employees 24/7/365 access to their e-payslips but ex -employees had access too. Issuing pension statements was also simplified.

The estimated savings to the NCC since implementing this solution are £100K in document storage costs and resource savings equates to £40k per annum.

30,000 users have access to the Engeneum HR portal and online payslips solution, improving business processes and efficiency throughout NCC and its community.

" Engeneum's HR Employee Portal has improved customer service through immediate access to documents; allowing us to respond to queries quickly. Individuals now spend time effectively, reducing delays and in creating personal files."

Steve Brooks, Team Manager (Recruitment)
Nottinghamshire County Council

KEY BENEFITS FOR NCC

- No limit to the number of users that can access their payslips and P60's 24x7x365 from any device and location. Full audit reports as standard.
- Document storage requirements and costs removed.
- Centralised documentation for easy access and sharing across the county.
- Connected to existing payroll software without integration.
- Fixed monthly fee ensuring easy budgeting
- Secure infrastructure, hosted in Azure UK data centres. (an on-premise portal is also available)
- Cost effective, easy to use with real cash savings.
- Being able to purchase from Engeneum via the Crown Commercial Services, G-Cloud Framework Agreement gave NCC confidence as the commercials were already in place and made the purchasing process straightforward & easy.
